EDUCATION

Eleven Fifty Academy, Fishers, IN— *Software Development*

JANUARY 2020 - APRIL 2020

I went through EFA's 12 week long, immersive, bootcamp course by Scott Jones, where I developed skills as a software and web developer. View my credentials in the Certifications section!

EFA Website:

<https://elevenfifty.org/about/>

Vincennes University(Area 31 career center), Indianapolis, IN— *Culinary Arts*

AUGUST 2014 - JUNE 2016

During my junior and senior years of highschool at Ben Davis, I was in the Area 31 career center taking college classes for culinary arts. These classes were provided by, and credited by, Vincennes University, for their associate degree program.

PORTFOLIO

PROFESSIONAL EXPERIENCE

Eleven Fifty Academy, Indianapolis, IN(Remote) — *Instructor Trainee*

JANUARY 2021 - JANUARY 2022

EFA is a non-profit organization that provides immersive, coding bootcamps for people who are looking to gain the experience needed to enter the tech field. My current responsibilities are to lead class lectures, debug any errors that students come across, provide mentorship for students throughout the entirety of their cohort, create "success plans" for students who may fall behind, and to assist in developing course curriculum when I am not assigned to a cohort.

ABOUT

I am a young fullstack developer and am very new to the technology industry. Previously, I was an aspiring chef, but I decided to change my career and explore the joys of development. I am very teachable and eager to learn new things, as well as respectful, open-minded, fun, and passionate. I am also willing to relocate.

TECHNICAL SKILLS

HTML, CSS, Bootstrap, Material.

JavaScript, React, TypeScript. Sequelize, Express, Node, PostgreSQL.

C#, Razor, ASP.Net Web MVC.

Visual Studio, Git/GitHub.

Azure.

CAREER OBJECTIVES

I am looking to join a company that will help me progress towards my goal of becoming a skillful front-end and/or back-end developer, then to one day start looking into video game development and to take a step into Augmented/Virtual Reality development.

Eleven Fifty Academy, Indianapolis, IN(Remote) — *Learning Assistant*

AUGUST 2020 - JANUARY 2021

As a learning assistant, my responsibilities were to provide support for lectures, answer questions from students, help debug any errors that occur in their code, and to provide any additional resources or personal lectures to students who may need it.

The Cake Bake Shop, Carmel, IN — *Line Cook/Baker*

AUGUST 2019 - MARCH 2020 (Laid off due to covid-19)

French styled shop serving cakes, pastries, and french cuisines. I assisted in the opening of the second location for this restaurant, and after working as a cook for a few months, I began picking up overnight shifts as a baker to learn something new and fill in empty shifts.

Anthony's Chophouse, Carmel, IN — *Line Cook*

AUGUST 2018 - SEPTEMBER 2019

An innovative take on a traditional steakhouse that redefines the modern fine-dining experience by serving classic steakhouse cuisine with a unique spin. I helped to open this particular restaurant. Here I developed better communication skills, leadership skills, knife skills, safety and sanitation, the ability to work calmly under pressure, as well as reacting swiftly and flexibly to urgent situations.

Kizuki Ramen & Izakaya, Carmel, IN — *Line Cook*

NOVEMBER 2017 - JUNE 2018

Japanese themed restaurant serving semi-traditional ramen and light food items. Here I developed better skills with customer communication, food handling, serving, and time management.
