Profile

I am a young Full-Stack developer who is new to the technology industry. Previously, I was an aspiring chef, but I decided to change my career and explore the joys of development. I am eager to learn new things, as well as respectful, open-minded, fun, and passionate. I am also willing to relocate if needed, but am primarily looking for a remote position.

Education

leven Fifty Academy 🛭

Indianapolis, I went through EFA's 12 week long, immersive, bootcamp courses by Scott Jones, United States where I developed the skills to become a software and web developer. View my

credentials in the Certifications section!

Professional Experience

03/2021 – 01/2022	Instructor	Trainee, El	even	Fift	у Асс	idemy
		· · ·				

Indianapolis, EFA is a non-profit organization that provides immersive, coding bootcamps for people United States who are looking to gain the experience needed to enter the tech field. My current responsibilities are to lead class lectures, debug any errors that students come across, provide mentorship for students throughout the entirety of their cohort, create "success plans" for students who may fall behind, and to assist in developing course

curriculum when I am not assigned to a cohort.

08/2020 – 03/2021 **Learning Assistant,** *Eleven Fifty Academy*

Indianapolis, As a learning assistant, my responsibilities were to provide support for lectures,
United States answer questions from students, help debug any errors that occur in their code, and to
provide any additional resources or personal lectures to students who may need it.

08/2019 - 03/2020

Line Cook/Baker, The Cake Bake Shaop

Carmel, United States

French styled shop serving cakes, pastries, and French cuisines. I assisted in the opening of the second location for this restaurant, and after working as a cook for a few months, I began picking up overnight shifts as a baker to learn something new

and fill in empty shifts.

08/2018 - 09/2019 Carmel, United States **Line Cook/Gopher,** *Anthony's Chophouse*

An innovative take on a traditional steakhouse that redefines the modern fine-dining experience by serving classic steakhouse cuisine with a unique spin. I helped to open this particular restaurant. Here I developed better communication skills, leadership skills, knife skills, safety and sanitation, the ability to work calmly under pressure, as well as reacting swiftly and flexibly to urgent situations. Towards the end of my time with Anthony's, I no longer had a defined position, as I was considered their "Gopher". Having experience with all of the positions available in the kitchen, I was tasked with

changing positions on the fly and filling in where needed.

Certificates

CIW - HTML/CSS

Verification Number -48e4e00ac59745dd9699359362d3da31 Acclaim Badges 🖸

These are badges earned through Eleven Fifty Academy that highlight the skills I learned throughout their programs.
